POST GRADUATE PROGRAMME IN MANAGEMENT (PGP)

2025 - 27

APPLICATION FORM

## STATEMENT OF PURPOSE

STATEMENT OF PURPOSE My name is Rohit Ghosh. I was born and raised in Kolkata, the capital city of West Bengal. My formative years were shaped at The Future Foundation School, where I laid a foundation in academics. During those years, I developed a deeper interest in mathematics and computer science. Those subjects intrigued me, guiding my decision to pursue engineering. In 2019, I joined the Kalinga Institute of Industrial Technology to study Computer Science and Communication Engineering. My undergraduate years were a time of immense learning and exploration. During my undergraduate years, I was fortunate enough to have some internship experience. During the months of January to August in the year 2022, I was an intern at HighRadius Private Limited, a unicorn startup. At HighRadius, I had the opportunity to delve into full-stack web development. This role allowed me to design and implement a web-based product from scratch, gaining a hands on experience in frontend and backend technologies. The role also enabled me to build machine learning models, utilizing data-driven insights to improve the application's functionality. This experience refined my skills in teamwork, problem-solving and delivering solutions within tight deadlines. After leaving HighRadius in September 2022, I accepted an internship in General Electric's Healthcare Division. The role introduced me to the Elastic Search, Log and Kibana -ELK stack, a powerful suite for data analysis. My responsibilities included developing proficiency in configuring and using the ELK stack for data processing and visualization. I also learned Gradle for managing project dependencies, automating builds and executing tasks efficiently. The role also enabled me to explore the Docker containerization, a software which helped me understand the importance of deploying applications in diverse environments. My technical toolkit includes programming languages like Python, Next.js, C, C++ and Java. I am also quite versed in SQL (Structured Query Language). It also includes technologies such as Docker, ELK stack and Gradle. These skills have been instrumental in my roles, academic projects and personal initiatives. They also reflect my ability to learn and adapt to emerging technologies. I am fluent in Bengali, English and Hindi with elementary proficiency in French and German. This multilingual capability allows me to communicate effectively across diverse cultural contexts. Additionally, I hold Associated Board of the Royal Schools of Music (ABRSM) certificated on Violin from Grades 1 to 3 all passed on the merit designation. The certificates reflects my passion for music and discipline in honing my artistic skills. My objective to do my MBA from a university where I can leverage my technical expertise and creative problem solving skills. I aim to work on innovative projects, contribute to meaningful debates and grow alongside my peers. In the long term, I aspire to steer the strategic direction of a consulting or financial division, leveraging my expertise to address emerging market challenges, optimize operations and unlock growth opportunities. The Post Graduate Program from IIM Visakhapatnam is the ideal stepping stone to achieving my ambitious objectives. IIM Visakhapatnam's stellar placement record with 26% in banking, finance, services, insurance (BFSI) sector and 33% in consulting of the total batch in 2023, improving in 2024 with 34% in BFSI and 31% in operations emphasizes its reputation as a launchpad for high impact careers. Its robust academic framework and focus on industry-oriented learning will equip me with the knowledge and skills to excel in these competitive fields. In conclusion, an MBA degree from IIM Visakhapatnam represents more than an academic pursuit- it is a gateway to realizing my professional aspirations.

## DECLARATION

I hereby acknowledge that I have thoroughly reviewed the provided instructions and willingly commit to adhere to the decisions made by the respective authorities of the Institute pertaining to my final selection for the program. I, ROHIT GHOSH, solemnly affirm that the information I have provided in my application form is accurate to the best of my knowledge and belief. I am fully aware that the data recorded in the IIM Visakhapatnam application form will be utilized for the preparation of the merit list. In the event that any discrepancies are identified in the details provided in my IIM Visakhapatnam application form, either during the enrolment process or throughout my course of study, I understand that this may lead to disciplinary action, including the cancellation of my admission, without refund for any fees paid.
