Briefly outline your professional plans and career objectives in your own words, explaining and substantiating why you want to do PGP and what you expect to get from it ?

In today’s dynamic and competitive world, achieving professional excellence requires a blend of technical expertise, strategic thinking and leadership acumen. With a keen interest in consulting and finance, my career aspirations are focused on contributing to leading organizations such as EY, PWC, Goldman Sachs or JP Morgan Chase companies renowned for their transformative compact on global industries. My ultimate goal is to rise to a leadership position, such as the CEO or head of a division managing operations across Asia or India, where I can drive growth, foster innovation and create meaning value. Beyond academics, the opportunity to interact with a diverse cohort of peers will enhance my interpersonal and leadership abilities. Engaging with industry leaders through guest lectures, workshops and internships will offer valuable insights into real-world challenges faced by global consulting and financial organizations. These experiences will prepare me to navigate complex business landscapes and deliver impactful results. In the long term, I aspire to steer the strategic direction of a consulting or financial division, leveraging my expertise to address emerging market challenges, optimize operations and unlock growth opportunities. By focusing on transformative leadership and innovation, I aim to contribute to the rising prominence of India and Asia in the global economic arena. The Post Graduate Program from IIM Kozikode is the ideal stepping stone to achieving my ambitious objectives. IIM Kozhikode’s stellar placement record with 33% in consulting and 26% in finance of the total batch in 2023, improving in 2024 with 33% in consulting and 28% in finance underscores its reputation as a launchpad for high impact careers. Its robust academic framework and focus on industry-oriented learning will equip me with the knowledge and skills to excel in these competitive fields. The university’s strong ties with top-tier firms inspire confidence that it can help me align my aspirations with tangible opportunities. In conclusion, an MBA degree from IIM Kozhikode represents more than an academic pursuit- it is a gateway to realizing my professional aspirations. I am confident that the knowledge, skills and opportunities gained here will empower me to excel in leading organizations and eventually assume a leadership role that drives meaningful change on a regional or global scale.

Describe your strengths and weakness as identified by you.

Self awareness is the cornerstone of growth and thorough introspection, I have identified key strengths that shape my professional aspirations, along with a weakness. I aim to address during my time at IIM Kozhikode. One of my strongest assets is my analytical thinking. I can deconstruct complex problems, identify patterns and derive actionable insights. This strength has been instrumental in solving challenging academic and professional scenarios, particularly those requiring strategic and data-driven decision-making. Coupled with a structured approach to problem solving, my analytical abilities position me well for the demands of consulting and

finance, where precision and critical thinking are paramount. However, I have identified public speaking as an area for improvement. While I am confident in smaller, team-based discussions, presenting to large audiences can sometimes feel daunting, particularly in high-pressure situations. Recognizing the importance of this skill in roles such as consulting or finance where articulating ideas effectively to diverse stakeholders is critical, I am committed to refining my public speaking abilities. IIM Kozhikode provides a fertile ground to address this weakness. Opportunities to engage in case competitions, leadership forums and presentations will allow me to practice and enhance my skills in a supportive and challenging environment. By the end of the program, I aim to transform this weakness into a strength, ensuring I am equipped to communicate confidently and lead, effectively in any professional setting.

What is your most significant accomplishment so far ?

One of my most significant accomplishments has been earning the Associated Board of the Royal Schools of Music (ABRSM) degree certificates in violin for Grades 1, 2 and 3 all with merit. These achievements mark a journey of dedication, discipline and a deep passion for music. Learning the violin has been both challenging and rewarding. It required countless hours of practice. Preparing for the ABRSM exams involved not only perfecting scales and pieces but also honing aural skills and sight reading abilities. The rigorous standards of these assessments pushed me to consistently improve and perform to the best of my abilities.

What are your present hobbies ?

Beyond academics and work, I am passionate about playing the violin which is a source of joy and discipline.

Any other information you would like to share ?

I am fluent in Bengali, English and Hindi with an elementary proficiency in French and German. This multilingual capability allows me to communicate effectively across diverse cultural contexts.
