Basic Guidelines:

- Always introduce yourself in chronological order. Either you go from MBA 1st year to your 10th standard, or you start describing yourself from the very beginning, from your birthplace to your 10th – 12th, then to your Graduation, and then to your Work-ex/Internships and CAT Preparation, with finally concluding about your current status.
- Remember to mention your interest and hobbies while introducing yourself and your future goals and aspirations for the company you applied for.
- Whenever you answer any question, it is best to back it up with real-life instances from your own life.
- Since the questions are subjective, students are free to assume their favourite company and dream job role for the write-up task and can mould their answers accordingly.
- Kindly refrain from using AI tools. The questions are for your benefit and should highlight your individual journey and accomplishments rather than generalized answers provided by AI tools like Chat GPT.
