Dear Rohit,

Thank you for sharing the details.

The points mentioned accurately reflect the work and responsibilities you handled during your internship/project involvement. The descriptions are well-structured and professionally written for resume purposes.

Wishing you all the best for your future opportunities.

Dear Sir,

I hope you are doing well.

I am currently updating my resume based on the work completed during my internship/project involvement, and I wanted to request your confirmation regarding the following contributions I worked on:

- Designed and implemented a state-driven onboarding lifecycle automation system using n8n and Google Sheets to streamline onboarding workflows, escalation follow-ups, and live product tracking through email-driven workflow orchestration.
- Developed and documented SOPs and workflow process documentation covering lifecycle states, escalation handling, automation logic, and operational workflows for cross-functional coordination.

For reference, I have also attached:

- The workflow implementation/process flow
- The SOP/documentation covering setup, operational flow, and usage details

Please let me know if these points accurately reflect the work and responsibilities handled during the engagement, or if you would suggest any modifications for better alignment.

Your confirmation would be very helpful.

Thank you.
